RE: Speed Table Request for Osborne Street, SW between Evans Drive and Murphy Avenue

Dear Pastor James Turks:

The above referenced streets have satisfied the technical requirements for speed table installation. To complete the approval process, at least 75% of the **owners** whose property fronts the street segments must affirm this project. Based on Fulton County tax records, we have identified 49 properties on these segments of the streets and a copy of the records is attached for your reference. **You will be given ninety (90) days from the date of this letter to complete the petition process. If the required information is not received by the deadline date of June 11, 2018 in our office, your petition will fail by default.**

Please note that **only one signature** shall be counted towards the above requirement for each property within the street segment.

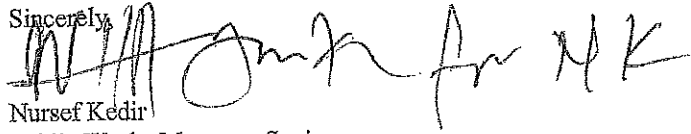

Only one signature shall be counted towards the above requirement for each multi-family complex including apartments, townhomes and condominiums. **Only a representative** (property manager and/or association president) may sign the petition and must provide a letter stating the majority of the residents are in favor of the traffic calming devices installation.

Once a petition supported by at least 75% of the property owners is received and verified, the street segments will be placed on our installation list, pending availability of fund. Please note that the street conditions with regard to a need for resurfacing will be reviewed and it will have to be approved by the City's Street Operations Division for speed humps to be installed.

There are no funds currently but the street will be added to installation list once petition requirements are met.

Should you require additional information or further clarification, please contact Adolphus Ofor, Senior Traffic Engineer, at (404) 330-6501 or via email to: aofor@atlantaga.gov.

Sincerely,

Nursef Kedir

CITY OF ATLANTA SPEED TABLE PROPOSAL

NOTE: The actual speed table location or number may be adjusted during installation due to the location of manholes, driveways, etc.

Please refer to the list from Fulton County Tax Record for the actual number of properties.

Please be advised that the installation of speed tables could slow the response time of the fire department and other emergency vehicles by several seconds per speed table.

NUMBER OF PROPERTIES: 49
 NUMBER OF SPEED TABLES: 4
